4+ Years · B2B SaaS · Enterprise · Healthcare · Complex Workflows

Phone : [992-135-4164](tel:992-135-4164) | Email : uiuxpratik@gmail.com | Location : Bangalore, India

Product Designer with 4+ years of experience designing complex B2B, SaaS, and enterprise products across healthcare and IT domains. Experienced in user research, problem discovery, workflow design, interaction design, prototyping, usability testing, and design systems. Worked closely with product managers and engineers to translate complex user and business requirements into clearer, scalable product experiences, with experience contributing to measurable improvements in issue resolution and product conversion.

Experience

Global Software Resource | UX Designer | Client: Siemens Healthineers

May 2024 — Present

- Designed user experiences for an **enterprise troubleshooting platform used by medical technicians at Siemens Healthineers**, translating complex diagnostic workflows and stakeholder requirements into clearer product experiences.
- Contributed to an **AI-assisted support platform handling 300–400 diagnostic tickets per day**, working across research, interaction design, and product delivery for the Siemens Healthineers project.
- Conducted **user interviews and usability testing** to identify workflow issues and improve clarity, contributing to an estimated **~30% faster issue resolution**.
- Collaborated with **product managers, requirement engineers, and developers** to translate requirements into UX solutions and support iterative product delivery.
- Worked within agile teams to refine workflows, communicate design decisions, and support feature delivery from design through development.

BETSOL | UX Designer

June 2022 — April 2024

- Designed UX for an **enterprise backup and monitoring product used by IT administrators**, working across complex product workflows and administrative experiences.
- Contributed to improvements in key product flows that supported **~40%+ higher trial-to-paid conversion**.
- Redesigned onboarding and core workflows to **reduce setup complexity and improve usability** for enterprise users.
- Built and maintained **reusable design components**, improving consistency across product experiences and supporting efficient design-to-development handoff.
- Collaborated within agile delivery teams, working with product and engineering stakeholders through design iteration, feedback, and implementation.

HIE-HQ | UX Trainee

January 2022 — May 2022

- Supported research, wireframing, and prototyping across multiple client projects.
- Assisted in creating internal **design systems and shared design tools** used by designers.
- Participated in design reviews and feedback sessions to improve design quality and communication.
- Developed foundational experience in UX research, interaction design, collaboration, and design execution.

Education

Mumbai University

2022

Bachelor of Engineering — Computer Engineering

Skills

Product & UX Design

Product Design, User Research, Problem Discovery, Interaction Design, Information Architecture, User Flows, Journey Mapping, Usability Testing, Wireframing, Prototyping

Product & Collaboration

Problem Framing, Design Critique, Stakeholder Collaboration, Cross-functional Collaboration, Design Storytelling, Feedback & Iteration, Agile/Scrum, Design-to-Development Handoff

Design Systems & Quality

Design Systems, Component Design, Accessibility, WCAG 2.1 AA, Visual Design, Interaction Design, Responsive Design

Tools

Figma, FigJam, Miro, Adobe Illustrator, Photoshop, Claude, Lovable
